Stand Up Against Racism

We should take a stand against racism because we should not start fights. We should work together. There should be no more violence. There should be teamwork. Everyone can be friends and be good to others. People in different countries can still be friends. There will be no more enemies. Some people are different but they can be friends.

Stand up Against Racism

We should stand up against racism because
racism makes it hard for people. People should be all be
friends and love each other. Racism makes people
sad. I think it's wrong to be mean to people.
